(THE DEPUTY COMMISSIONER, KOLAR DISTRICT.)

I have the honour to state that the question of opening a ntre in this District had been placed before the District Board meeting held on the 28th July 1934. The Board resolved that the Director of Industries and Commerce may be consulted as regards the selection of the place best suited for the purpose and all other details re: the working of the scheme. The Director of Industries and Commerce referred the matter to the Manager, Padanvai spinning centre who after visiting Hossur in Goribdnur Taluk, Pathapalya in Bagepalli Taluk and Thayalur of Mulbagal Taluk has recommended Hossur area in Goribidnur Taluk as best suited, in his opinion, for starting a Khadi centre. A copy of his report dated 17-12-34 is enclosed for the kind information of Government and it will be seen therefrom that a recurring expenditure of Rs.99/- per mensem is required for meeting the establishment charges and Rs.3600/- for initial charges. His report was again placed before the Boar meeting held on 23-12-34 who after due consideration resolve Khadi centre may be started at Hossur, that half the re annual cost towards establishment ~~should~~ be borne by the Boa other half by Government and that the amount necessary towar capital may be provided by the Board. The initial charges w arranged to be paid in three equal annual instalments of whi first instalment of Rs.1200/- will be paid during the curren of the amount provided for purchase of breeding bulls (D

XX

No 66.

Letter No.997 dated 17-12-34 from the Manager of Badanval Spinning circle forwarding a report re: the starting of a khadi centre in this District.

The Khadi centre may be started at Hossur. Half the recurring annual cost towards establishment may be borne by the District Board, the other half by the Government. The amount necessary towards working capital may be provided by the Board.

"EXTRACT"

PRESIDENT,
District Board, Kolar.

Proposed Khadi Centre in Kolar District.

Working Report of the manager Badanaval Spinning Circle.

I went to Kolar on the 7th noon and met the Presid
of the District Board. He fixed up a programme of visit to
three places in connection with the selection of a suitable
area for the proposed Khadi Centre viz. Hosur near Goribi-
danur, Pathapalya near Bagepalli and Tayalur near Mulabagal.
Both of us visited the places in the above order on the 8th,
9th and 10th instant. I record some relevant facts that came
to my knowledge as a result of enquiries in each place.

Hosur in Goribidanur Taluk is situated near the road
joining Goribidanur and Madhugiri and is seven miles distant
from the former. It is a Hobli headquarters and a trading
village possessing a post office, Hepital and a Middle school.
A small weekly fair is held on Saturdays. In the surrounding
area and towards the Hindupur side cotton is grown of both the
varieties Doddahattis and Sannahatti. Old time spinning wheels
are to be found preserved in the villages. There are many women
who know spinning, and they gin their cotton too. Some of them
do the carding and slivering work by the hand-bow, while the
professional pinjari is also available for others. In Hosur
village there are twenty Adikarnataka looms. They are working
on mill yarn, but they find that mill finished cloth is keeping
down the consumption of mill spun but handwoven -
Duppatties or Hatchadas. The weavers unanimously recalled the
days of handspinning when each agricultural family was in turn
keeping the weavers fully employed on their looms, and the lat
were getting their wages in coin and grain. Handspinning had
dwindled, resulting in the dwindling down of the loom activitie
One weaver showed us handspun yarn received from a neighbouring
village for being woven into a Hatchada. We visited Upparahalli
just a mile from Hosur, where in one family we found the spinni
wheel active even to this day. The younger ladies were grindin
corn and an elderly lady was spinning.

The local Charka Samsthe at Hosur formed by a few enthusiastic educated persons has been doing a good amount of propaganda work in favour of the revival of the handspinning - Industry. A subscribed capital of about one Hundred Rupees has been completely converted into yarn and cloth, and the benefits of the association could not be extended to more than a score of active spinners. A bundle of finer yarn was recently sent by the Sangha to Badanaval for being woven into a few varieties of cloth. The rate for cotton lint in average is Rs 0-3-8 per pound, and the carding and slivering charges are Rs 0-0-6 per seer of 24 tolas or 10 pies per pound which is not excessive. The spinning wages are fixed at Rs 0-2-0 per seer of rough yarn about 6 counts, and the alternative rate is 8 pies for a 1000 yard hank. The latter system is availed of only by a few fine yarn spinners. The above rates are some what excessive compared with rates obtaining in a regular working Centre like Aimangal in Chitaldroog where the conditions prevailing are identical. The weaving rates are Rs 0-12-0 to Rs 0-14-0 per piece of 12 yards 27" wide, and this too is not too high. With regular work for wheels and looms, rates can be revised as circumstances need.

The area near Hosur affords very good facilities for starting a Khadi Centre.

From Hosur, I accompanied the President to Pathapalya which is a big village centre like Hosur. Cotton is not grown here. The spinning Industry is a dead industry in the villages. There are some half a dozen enthusiastic gentlemen of the Vysya community who tried to revive the handspinning Industry in the village. With this in view, they started Sri Balakrishna spinners Co-operative Society, Unlimited, whose subscribed share capital amounts to about Rs 120/-. They decided not to run the risk of a possible loss, because they could not be ensured of buyers in

advance. The Society is now dealing with swadeshi mill spun and handwoven cloths and even in this line the Secretary complained there was not much demand. We left Pathapalyam and reached back to Kolar on the 9th evening.

On the 10th with the President, I visited Thayalu seven miles from Mulabagal. This is a big weaving centre consisting of a hundred active handlooms worked by the Devanga weavers. It is a Hubli headquarter, possesses a Police-station and a Dispensary and has the privilege of using the electric lights. On investigation I found that handspinning has become a forgotten industry of the past. Cotton is not grown neither was its ~~growing~~ in vogue at any time. There are two or three weaver gentleman who do spinning work for their personal use. They are doing for the sake of principle. There was no other spinning activity here.

sideration of the above facts I have no hesitation in recommending that the area near Hosur in Goribidanur Taluk affords the best advantages for starting of a Khadi Centre by the District Board of Kolar. The spot is accessible by every means of communication by road, 7 mile, and by railway. About a dozen villages can be taken up for spreading the activities of the Centre. Among them are the villages of Hosur, Upparahalli, Yerapothanhalli, Bonasandra, Bhaktarahalli, Kemkere, Mudigere, Hoskote, Kurudi and Chan = dranaduru. In the first year, three hundred spinning wheels may be organised for work. This will involve a monthly output of yarn to the extent of 750 pounds, The value of which may be put down at about Rs 400/- considering rough counts of yarn produced in the beginning. The value of Khadi produced may be taken to be Rs 600/- per month and with the best expectation of turnover of capital will be once in a half year. A capital of Rs 3,600/-will be needed to be invested. I recommend the

the sanction of the entire amount in the beginning so that development to the level indicated above may be reached as quickly as possible, unhampered by any want of funds in the course of the working. Only as an alternative to this, I suggest that atleast Rs 1,500/- should be provided at the start and the rest in two half yearly instalments.

As regards establishment, I recommend the following scale as a reasonable minimum which may be provided for by the District Board.

One Manager pay Rs 40 + 10 D.T.A.	
One Yarn collector @ - pay Rs 15 + 4 D.T.A.	
House rent	5
Contingencies - including Propaganda charges	15
One servant	10
	Rs 89/- per month.

It is possible to furnish from among the senior workers of Badanaval staff a trained hand to fill the place of the Manager of the new Centre till the Centre is properly organised. In the case of Aimangal Khadi Centre in Chitaldroog District such a hand was lent on a pay of Rs 40 plus Rs 10 D.T.A. per month, and he is still retained there by the Chitaldroog District Board. A Yarn collector at Badanaval is paid Rs 15 plus 4 per month.

I may add here that the above should be treated as the basic scale of establishment essential for running the Centre and any additon is to be such as will be justifiable by increased activities, and the ability of the Centre to be able to bear such addition out of its own working without loss of working Capital. It is also to be expected that as a result of sale of Khadi produced outside the Centre, a margin of profit to the extent of an anna per rupee will be realised which will contribute to increase the working Capital.

Work can be started in January or early in February which just precedes the cotton season and thanks to the spade work turned out by the local Khadi Samsthe, spinning and weaving can be comenced within even a month of the start. Conditions in the area favour the consumption of Khadi by the spinners and others in the villages thus building up a local market from the beginning. I also forsee the possibilities of producing here ordinary rough Khadi at comparatively cheaper rate than in any other existing Khadi Centre in the State and such varieties comand their own market.

Badanaval
